addition to their plant which will  
be used as a saw factory when com-  
pleted. They expect to start in the  
business in a small way and gradually  
enlarge as they go along and as the  
demand increases. They expect to  
have the plant in operation within a  
couple of months.

The Wisconsin Central train due  
here at 3:30 on Tuesday afternoon  
was about forty minutes late owing  
to an accident that occurred about  
two miles north of the city. A car  
loaded with logs jumped the track  
and broke the train in two, but the  
logs stayed on the car and it ran  
along for some distance over the ties  
until it stopped without any damage  
to anything. The passengers were  
shaken up a trifle, but outside of the  
delay caused by getting the car back  
onto the track, there was no damage  
done.

### WILL REORGANIZE

Business Men Hold Meeting at the  
City Club to Revive Ad-  
vancement Association

There was a meeting of the busi-  
ness men at the City Club rooms on  
Thursday evening for the purpose of  
talking over the matter of reviving  
the Advancement Association in this  
city. There were about thirty mem-  
bers and others in attendance, and  
the matter of organizing was thoroly  
discussed from the different stand-  
points, and it was the unanimous  
sentiment that an organization should  
be formed, and with this end in view  
a committee was appointed for the  
purpose of drafting a constitution and  
by-laws which will be submitted to  
the next meet of the association for  
discussion and approval.

Those present took a vote on the  
amount of the membership fee, and it  
was decided to place it at ten dol-  
lars, so as to allow a larger number  
to join than would have been the  
case had the fee been placed at  
twenty-five dollars, as was the inten-  
tion at first. There was considerable  
discussion as to the amount of the  
admission fee. All agreed that it  
would be a good thing to have all  
the money possible in the treasury  
of the organization, but many were  
of the opinion that a large mem-  
bership was just as desirable as a large  
amount of money, as with a large  
membership it was claimed that the  
people of the city as a whole would  
work more harmoniously than if the  
association were formed of a small  
number.

While opinions differed as to the  
details of the organization, there  
was no question as to the desire of  
all present to organize such an asso-  
ciation, and the unanimous verdict  
was that it was a good thing for the  
city and that a great deal of good  
could be done if the matter were  
taken hold of in a proper manner.

### Death of John Jung.

John Jung, who was one of the  
old residents of this city, died at his  
home on the west side on Thursday  
last from the effect of a stroke of  
paralysis which he sustained about  
a week before. He sustained a pre-  
vious stroke about two years ago, but  
recovered from this sufficiently to  
be able to be about, altho he has  
never been very strong since then.

Deceased was born in Germany on  
the 21st day of March, 1836, and was  
consequently 73 years and 22 days old  
at the time of his death. He came  
to this country with his parents  
when a boy, the family settling at  
Milwaukee, where Mr. Jung grew to  
manhood. He came to Wood  
County about seventeen years ago,  
and has since made his home here.

He is survived by a wife and four  
children, Henry of Milwaukee and  
John of this city, and two daughters,  
Mrs. Anna Adams of Ottumwa, Ia.,  
and Mrs. Wm. Hensler of this city.

Since his retirement from active  
life Mr. Jung has been a familiar  
figure about town, and notwithstanding  
his age was of a companionable  
nature and cheerful disposition and  
had many friends who were truly  
sorry to hear of his death.

The funeral was held on Monday  
morning from the Catholic church in  
this city, the last rites being con-  
ducted by Rev. Wm. Reding, pastor  
of the church, the remains being in-  
terred in Calvary cemetery.

### Visited in Norway.

O. G. Malde, who has been visiting  
at his old home in Norway for a  
month past, returned to this city on  
Tuesday and left today for Orono  
where he will take up his work at  
the experiment station during the  
coming summer. Mr. Malde reports  
a very pleasant trip to the old  
country, where his mother is still  
living, and enjoyed his visit very  
much. Mr. Malde left Norway  
eighteen years ago, but has been back  
there once before to visit his old  
home.

### Dr. Till Going to Austria.

Dr. John Till, the plaster-on-the-  
back doctor, has announced his inten-  
tion of going to Austria, and he states  
that he will never return to America.  
It is to be hoped that the "doctor"  
will keep his word. In the mean-  
time the people of Austria have our  
sympathy.

Miss Lizzie Mason of Portage ar-  
rived last week to keep house for her  
brother, Garry Mason.

L. M. Nash went to Junction City  
this morning where he is looking  
after his farming interests.

Mrs. J. S. Thompson returned on  
Tuesday from Chicago where she had  
been visiting with friends and rela-  
tives for a week.

Rev. Fred Cant has been spending  
several days during the past week at  
Minneapolis, where he went on busi-  
ness combined with pleasure.

Willie Jones, the youngest son of  
Mr. and Mrs. W. T. Jones, has been  
quite sick the past week with an at-  
tack of bronchitis.

Mrs. Mary Jones, who makes her  
home with her daughter, Mrs. D. A.  
Telfer, has been confined to her bed  
for several days past with sickness.

An attempt was recently made to  
get the Second Regiment band away  
from Marshfield. Prof. Laffey, who  
led the Second Regiment band during  
the war with Spain, recently or-  
ganized a band at Oshkosh, and  
thought it would be a nice thing to  
have it appointed the regimental  
band. A vote was taken among the  
officers of the regiment, and they de-  
cided unanimously in favor of Marsh-  
field. As the Marshfield band has  
been doing better field work since  
its appointment than any other band  
in the state, it would be rather a  
poor move to give the appointment  
to some other band.

### Held a Billiard Tournament.

The Elks have been holding a  
billiard tournament at their hall  
during the past month, and on Tues-  
day evening the matter was celebrated  
by the losers furnishing a supper for  
the members of the lodge. Those on  
the winning side were J. J. Martin,  
H. C. Demitz, W. M. Ruckle, Kirk  
Mair, John Hildner, E. W. Ellis,  
Chas. Hatch, Geo. R. Houston, F.  
G. Gilkey, Charles Natwick and A.  
G. M. Hiler.

Losers—Charles Briere, C. P.  
Kelllogg, Lucy Horton, W. O. Blau-  
clair, Roy Lester, Sam Church, Geo.  
M. McIntyre, Seth Jones, James  
Hamilton, A. J. Podawiltz and  
Arthur Podawiltz, Jr.

One hundred and twenty-one games  
were played, the winners scoring  
5,200 points and the losers 4,915.  
Charles Briere made the highest  
score, not losing a game during the  
tournament.

Forty-five were in attendance at  
the feed, the menu consisting of roast  
beef, mashed potatoes, and brown  
gravy, green peas, jelly, horse radish,  
bread and butter, coffee and cigars.

Besides the feed there was an in-  
itation. O. Mills being taken into  
the order. A very pleasant evening  
was spent by the members in attend-  
ance.

Contract Let for Bank Building.

The contract for the new Wood  
County National Bank building was  
let on Tuesday morning to the Win-  
berger construction company, their bid  
being the lowest of the four sub-  
mitted, and it is expected that work  
on the building will be begun within  
a very short time.

The building will be constructed  
of Bedford cut stone, and it is ex-  
pected that it will cost when com-  
plete between fifty-five and sixty  
thousand dollars.

The contract to move the old  
theater building from the lot where  
it is now located has been let to E.  
C. Ketchum, and it is expected that  
this will be done the latter part of  
this week, when work can immedi-  
ately be begun on the basement for the  
new building.

The building of a handsome bank  
building on this corner will be a  
great addition to the appearance of  
the city and when completed will be  
a great addition to the nice buildings  
that we have here.

Will Leave the Road.

The Wimmer Brothers Stock com-  
pany has decided to abandon the road  
at the close of the present season and  
next season they will open a stock  
company in San Antonio, Texas, and  
will play there exclusively for the  
season.

Joseph Wimmer, formerly a  
member of the traveling company  
and later at the head of the Bonito  
Maid company has located in Menom-  
inee, Mich., and it is said he is  
meeting with excellent success.

Frank Wimmer is quoted in strong  
reasons why they have decided to  
abandon the road for a permanent  
location. He claims that matters  
have reached a point throughout the  
country where managers of theaters  
everywhere demand such a large per-  
centage of the receipts that it is hard  
for the shows to break even, let alone  
make the profits their work warrants.

A Double Wedding.

A double wedding occurred at the  
Catholic church at Pittsville last  
Thursday morning, when Miss Lucy  
Pinney and Edward Keenan were  
married, and Miss Anna Keenan and  
George Severson were united in the  
holy bonds of matrimony.

After the ceremony the wedding  
party drove to the home of Mrs.  
Anna Keenan in the village of Dex-  
terville where a wedding breakfast  
was served, and a pleasant time was  
had.

The young people are well known  
in Dexterville and have also many  
friends in Grand Rapids who will  
unite with the Tribune in extending  
congratulations.

Mr. and Mrs. Keenan will make  
their home at LaCrosse where Mr.  
Keenan is employed on the railroad,  
and Mr. and Mrs. Severson will live  
at Dexterville where Mr. Severson  
is engaged in farming.

Death of Chris Brahmstedt.

Chris Brahmstedt, one of the  
pioneer farmers of Saratoga, died at  
his home on Saturday at the age of  
66, after a week's illness. His death  
being the result of an internal injury  
which he received a week before  
while engaged in tying some cattle  
to his wagon which were going to  
market. His injuries were at once  
considered serious, and an operation  
was advised, but to which the de-  
ceased would not submit and after a  
week's suffering he passed away.

Deceased was born in Germany and  
had been a resident of Saratoga for  
about thirty-five years, and was  
highly respected by all who knew him.  
The funeral occurred on Tues-  
day from the Lutheran church in  
Kellner.

Death of Congressman Babcock.

Congressman J. W. Babcock, who  
for fourteen years was a member of  
the house of representatives, of the  
United States, where he represented  
the state of Wisconsin, died in Wash-  
ington on Tuesday after a lengthy  
illness. He was 69 years of age. Mr.  
Babcock was at one time a resident  
of Neenah where he was engaged in  
the manufacture of lumber.

Will Open a Hotel.

Mrs. Joe Akey of Rudolph has  
leased the Lefebvre building from  
the Tribune office and expects to  
move into the building in the near  
future and open a hotel.

The place is very conveniently  
located for a hotel and boarding house  
and the venture should prove suc-  
cessful.

### BURGLARS IN TOWN

Several Residences Entered by  
Midnight Visitors and Small  
Sums Taken

Our city passed thru an epidemic  
of burglaries last week, and there  
were several nights when a fellow  
hardly dared to get up during the  
night for fear he might find a burglar  
providing about the house.

Among the residences that were  
entered were that of Mrs. John  
Hamm, William Wallace, John  
Brennan, A. P. Bithyore, J. R.  
Arpin, and at several other places  
an effort was made to get into the  
house but the would-be robber was  
scared away.

Money seemed to be the only thing  
he was after, as nothing else was  
disturbed and the amount of money  
that was secured was very small.

The fellow was discovered while  
in the act of ransacking thru Mrs.  
Hamm's home, that lady being  
awakened by the fire alarm, at which  
time she discovered that there was  
somebody in her room. She made  
an outcry to attract the attention of  
some other member of the family,  
and was grabbed by the burglar, who  
attempted to choke her and keep her  
from calling out. This was found  
to be a losing game, however, and  
the visitor let go of his victim and  
made his escape.

At the John Brennan home the  
fellow was also discovered by Mr.  
Brennan but made his escape before  
he could be captured. It seems that  
the fellow went from house to house  
trying doors, and where he found one  
open he entered and took what cash  
he could get and made his escape  
without disturbing anything else.

The police were notified of the  
deprecatious and they kept a close  
lookout for the man and during the  
daytime arrested all the

### New University Catalogue.

The new catalogue of the University of Wisconsin, a book of 126 pages describing the institution and its courses of study in just 100 of the press, shows 4,631 students enrolled this year in the colleges of agriculture, law, engineering, medicine, letters and science, and the graduate school. Besides the general courses in the liberal arts, the college of letters and science now includes special courses in chemistry, commerce, journalism, music, pharmacy, and the training of teachers. In the college of engineering, the catalogue shows, there are civil, mechanical, electrical, and mining engineering courses and the course in applied electro-chemistry. The college of agriculture embraces the long, middle, short, and dairy courses, the farmers' institutes, home economics, and the agricultural experiment station. The first two years of medical work are given in the school of medicine, and a three year course is offered in the law school. The extension division has departments of instruction by correspondence and lectures, debating and public discussion, and general information and welfare work.

### Lincoln Instead of Indian Head.

The new copper cent which is now being manufactured in the mint will bear the head of Abraham Lincoln instead of the familiar Indian head. This will be the first instance in which the portrait of a president has been used in the coinage of the United States.

The act of 1792 establishing the mint and regulating the coin of the United States, provided that upon one side of each coin should be an impression or representation of the head of the president for the time being, his name, the succession of the presidency, and the year of the coin. This raised a storm of opposition because it was the practice in monarchies whereas the United States was a republic and an amendment was adopted striking out the objectionable clause and inserting in lieu thereof "In God we trust." The large copper cent originally coined bore the head of the Goddess of Liberty, subsequent one cent pieces bore the flying eagle and the latest device was that of an Indian head which is now to be superseded by the head of Lincoln.

### Bring Children up to Work.

My ideal of a boy is one who will grow up and be able to support himself and a wife and children. To be fit to be an American citizen he must get to preserve his self-respect and combat himself so as to wrong no one. Fathers need the most preaching. Frequently the mothers, who have had hard lives, take the wrong course in attempting to benefit their daughters and sons by bringing them up free from hard knocks. Next to hardness of heart the least desirable quality is softness of heart, and the mother or father should not try to bring up their child in that way. You don't get the right stuff out of those children for the next year, or you don't get decent citizens when there isn't any war. Bring them up to work, so that they shall recognize an ideal is not something to be shirked but to overcome. —Ex President Roosevelt.

### "One Touch of Nature Makes the Whole World Kin."

When a rooster finds a big fat worm he calls all the hens in the farm yard to come and share it. A similar trait of human nature is to be observed when a man discovers something exceptionally good—he wants all his friends and neighbors to share the benefits of his discovery. This is the touch of nature that makes the whole world kin. This explains why people who have been cured by Chamberlain's Cough Remedy write letters to the manufacturers for publication, that others similarly ailing may also use it and obtain relief. Behind every one of these letters is a warm hearted wish of the writer to be of use to someone else. This remedy is for sale by Daily Drug & Jewelry Co.

A choice 80 acre farm located one mile from Rudolph, 60 acres cleared, 20 acres wooded land, growing all done and ready for seedling. New barn and good house. Will be sold at a bargain if taken soon. Easy terms will be given. Owner has good reason for selling.

Mr. F. G. Fritts, Oconto, N. Y., writes: "My little girl was greatly benefited by taking Foley's Kidney Remedy, and I think it is the best remedy for constipation and liver trouble." Foley's Kidney Remedy is best for women and children, as it is mild, pleasant, and effective, and is a splendid spring medicine, as it cleanses the system and clears the complexion. John E. Daly and Johnson & Hill Co.

### SIGNALS OF DISTRESS

Grand Rapids People Should Know How to Read and Heed Them

—Six kidneys give many signals of distress.

The secretions are dark, contain a sediment.

Passages are frequent, scanty, painful.

Backache is constant day and night.

Headaches and dizzy spells are frequent.

The weakened kidneys need quick help.

Don't delay! Use a special kidney remedy.

Donan's Kidney Pills cure sick kidneys, backache and urinary disorders.

Grand Rapids evidence proves this statement.

Mrs. E. H. Chapman, living on N. Wisconsin and North streets, N. Grand Rapids, Wis., says: "I suffered from a dull, aching backache and sharp shooting pains across my loins for some time. If I attempted to stoop or lift, sharp pains would pass through my body and make me miserable. I had severe headaches and pains in the back of my head, and when I arose in the morning I felt tired, languid, and devoid of ambition. My kidneys were disordered and the secretions gave me great annoyance by their irregular action. I read of Donan's Kidney Pills, and concluding to give them a trial, procured a box. I was relieved of my trouble in a short time and I am glad to recommend the remedy that brought about this change."

For sale by all dealers. Price 60 cents. Foster-McMillan Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Donan's—and take no other.

### SIMPLE WASH CURES ECZEMA

Why Suffer? While a Simple Liquid Has Accomplished Thousands of Cures

—It is now thoroughly established among the best medical authorities that eczema is purely a skin disease, due to a germ, and curable only through the skin. It is not a blood disease at all; in fact, thousands of people suffer with skin disease and are perfectly healthy otherwise, and thereby prove they have no diseased blood.

Smothered salves cannot reach the germs because they do not penetrate the skin. The only way to reach the germs is by means of a penetrating liquid.

Such a liquid can be obtained by simply mixing ordinary oil of wintergreen with thymol, glycerine and other healing agents. This compound, known as D. D. D. Prescription, stops the itch instantly—and the cures all appear to be permanent.

In fact, it took thousands of cures, case after case, before the best scientific authorities were convinced of the absolute merit of this remedy.

D. D. D. Prescription kills the germs in the itching skin. Its effect is seen within one minute after the first application. We especially recommend D. D. D. Soap in connection with the treatment.

**ALTDORF**  
When men say hard things about you it is a sure sign that you are still alive. Epigrams are given to the dead.  
How many times we have heard, "You ought to vote for Mr. A. for office because he needs it whereas Mr. B. is well enough off to live without it," and this in view of the fact that Mr. B. is generally a very times better qualified than Mr. A. is. Following out this line of thought it looks as though offices were created for the support of poor people who want a living without much work (at least that is their idea of an office) and not for the management of public duties for the best interests of the public.  
We are certainly living in a rapid age, for we have lived nearly two years in the last week, at least we have had all four seasons twice since we wrote last week's items.  
G. H. Couklin has accepted a position as traveling salesman for the Gallison Iron Works of Ohio. They manufacture bridges, culverts, etc. Mr. Couklin is an old hand on the road so we know he will meet with great success. Earl has rented the farm for three years.  
Henry Huser has gone to work for the Jacob Scarls Cranberry Co.  
A baby boy was born to Mr. and Mrs. Anton Arnold last Friday. Mother and child are doing well.  
Vray Litchfield has been doing thus far this spring (?) on account of fine gold and wet weather.  
Nick Wirtz is kept busy carpentering doing mason work in this vicinity this spring.  
**VESPER**  
Mr. Carlin transacted business in Grand Rapids on Tuesday and while looking over the many sights in that bustling city missed his train. Mr. Carlin tried to induce the conductor on the freight to carry him home but the conductor must have taken him for a spotter as he would not stand for it and it is safe to say Carlin was as mad as a wet hen. To make a long story short he had to drive home that night.

UNION \$3.50 MADE SHOES FOR MEN

The guiding motive in W. L. Douglas shoemaking is to produce the best possible shoe at the price—a shoe that has never been equalled. Every move he makes is toward that end. While his unrivaled facilities as the world's largest shoemaker splendidly second the endeavor, yet it would be impossible to produce the \$3.50 shoes which rival much higher priced footwear, in attractiveness, in comfort and in service, were it not for the high standard he has set. People sometimes get the impression that all \$3.50 shoes are of equal value, but if you could see the difference between the shoes made in the W. L. Douglas factory and those of other makers, you would quickly understand why they hold their shape better, fit better and are of greater intrinsic value than any other shoe on the market to-day. W. L. Douglas guarantees their value by stamping his name and price on the bottom. Even though the price of leather has advanced very materially of late, you will find the same superior quality in W. L. Douglas \$3.50 shoes that have made them the most popular footwear in the world.
